PROFILE

IT-focused software developer with a Physics and Computing background, building full-stack products end to end — mobile apps, backend APIs, and AI-powered tools. Comfortable working independently or as part of a team, picking up new systems quickly, and solving real technical problems under time pressure. Seeking an IT support or software development role where these skills can be put to immediate use.

CORE SKILLS

- Software development — React, React Native, FastAPI, Node.js
- Databases — PostgreSQL, Firebase/Firestore
- AI/LLM integration and prompt design
- Troubleshooting and technical problem-solving
- Collaborative teamwork on shared codebases
- Git/GitHub version control
- Payment integration (Paystack) and API work
- Learning new tools and systems quickly
- Clear technical communication with non-technical users
- Reliable, independent, and detail-oriented work style

EXPERIENCE

Group Member — GrantGuard AI Project — Codetrain Africa

2025 - Present

- Working in a two-person team, independently owning the document upload and text-extraction pipeline for an AI tool that reads grant agreements and extracts obligations and deadlines.
- Coordinating closely with a project partner on shared architecture decisions, using FastAPI, PostgreSQL, and an LLM API to turn unstructured documents into structured, usable data.

Independent Developer — Pool & Kofi — Personal Projects

2025

- Built a React Native savings app with Firebase authentication, Firestore, and Paystack payment integration.
- Built a Streamlit-based chatbot using the Gemini API with a custom knowledge base.

Customer Service Representative — Scancom PLC (MTN Ghana)

Sept 2024 - Sept 2025

- Assisted customers with technical and account issues for a major telecom provider, including basic troubleshooting support.

EDUCATION

BSc. Physics, Specialisation in Computing — Kwame Nkrumah University of Science and Technology (KNUST), Ghana. Jan 2020 - Sept 2024.

ADDITIONAL STRENGTHS

- Comfortable working across the full stack, from database to user interface
- Able to work independently or collaboratively within a team
- Strong written and verbal communication
- Available to start immediately
